(54) INTERMEDIARY DEALING SYSTEM FOR COMMODITY

(57)Abstract:

PURPOSE: To provide a system which efficiently promotes intermediary dealing business by many parties concerned for many commodities.

CONSTITUTION: This system is equipped with a 1st memory 11 which stores data regarding sale applicants and data regarding commodities that the sale applicants try to sell and a 2nd memory 12 which stores data regarding purchase applicants and data regarding commodities that the purchase applicants try to purchase. The system is equipped with a judging mechanism 2 which compares the data regarding the commodities in the 1st memory 11 with the data regarding the commodities in the 2nd memory 12 to judge whether or not they match each other.

LEGAL STATUS

[Date of request for examination] 08.05.1997

[Date of sending the examiner's decision of rejection] 19.10.1999

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
